**How to Profit Through Tax Exemption**  
With today's high tax levels, investors in medium and high tax brackets are turning to tax-free Municipal Bonds for income that they can keep.  
If you have a taxable income of \$10,000 or more, you may be well repaid by investing the tax advantages of tax-exempt State and Municipal Bonds. For instance, if you file a single return on a taxable income of \$15,000, you would have to receive a dividend return of 7.4% on a tax-free security in order to equal the yield from a 3.5% tax-free B-bond. It's something to think about.  
Our New Booklet, "How To Profit Through Tax Exemption" explains in plain language your need for tax exemption, tells how much these high grade investments can be worth to you. There's a coupon attached. Send for copy today.
