

# Switches Cause Hitch in Plans

South Oakland garbage and rubbish authority can continue to use the Birmingham city property on E. Maple through January, city commissioners agreed Monday night in extending contract terms. City Manager D. C. Robert said a recent strike at a Detroit electrical supply company has delayed the installation of switches at the authority's new incinerator in Royal Oak township. The authority is paying Birmingham \$900 a month until the incinerator fires can be lighted, an event planned for early December until the new electrical switches are installed.

# UNWRITTEN LAWS

WATCH A PEDESTRIAN GETTING OFF A BUS

When you see a bus ahead on your right stopping to let off passengers, slow down and watch out as you go by. The front end of the bus is a "perfect" hiding place for a pedestrian. He can pop out from behind it in no time flat.

A stopped bus should ring an alarm in the mind of the motorist just as a frontiersman is alerted when he approached a large tree trunk, which might hide an Indian on the war path.

"Accident-free" motorists are those who have made a specialty of spotting favorite hiding places of pedestrians and thus are able to slow down in time so they can stop in time.
