Anti-United Nations Campaigns Explained

By ALICE E. MORGAN

An audience, many of whom were civic and educational leaders in the Birmingham area, heard Gordon D. Hall discuss the ever-increasing campaigns against the United Nations and its several divisions.

Hall pointed out the dangers of these attacks citing the rising circulation figures of bulletins and newsletters carrying these UN attacks.

Among the most active of the anti-United Nations groups in the country, Hall pointed out, is the Minutemen in the USA. He said he felt they were over-enthusiastic in their efforts to protect America and in so doing frequently go too far in the wrong direction.

His prime example of this was the dismissal of an assistant school superintendent in Dallas, Tex., "permitted to resign" after the Minutemen had a man paired against him for having used UNESCO material in the schools.

According to Hall, the Minutemen have said, "Even garden clubs in the United States have allowed themselves to become infiltrated by the Communists."

"They believe," he said, "that their organization is being infiltrated by the Communists, and has the sacred duty of routing out every Communist in the country. Through the use of articles from several magazines, newsletters and other published organs, Hall showed many methods by so-called loyal, patriotic groups to carry on programs of a directly opposite nature."

He traced their history, stressing what he termed "their indiscriminate way" of attaching a "Red" label to a person or organization.

"Through the use of articles from several magazines, newsletters and other published organs, Hall showed many methods by so-called loyal, patriotic groups to carry on programs of a directly opposite nature."

"The names of their organizations, the titles of their publications and the slogans they use give every indication of perfect loyalty to this country," Hall said. "It is only through thorough study and analysis that one can see how terrible their methods are."

HE POINTED OUT the works of Merwin K. Hart and Gerald L. K. Smith, among others.

"These men gave every impression of loyalty, yet they have been constantly working to undermine our government, to blacken the reputation of United Nations and really loyal groups."

"Through clever techniques these subversive groups hoodwink many into supporting them," Hall declared. He pointed out business concerns who have given them financial support, honestly believing they were backing an organization working for the betterment of the country as a whole.

IN CLOSING, Hall reminded his listeners that jailing these subversives is not the answer.

"Like the rest of us, they have the rights of speech, writing and meeting together. They, like us, are protected by our constitution.

"What we must do, is arm ourselves with every available bit of information against them, educate ourselves and our children to know them for what they are, and fight them on their own ground."

Hall, a member of the Friends of Democracy, has been compiling data on his subject since 1946, and is currently on his first in a series of lecture tours. He was brought to Birmingham through the efforts of the Women's groups of the Unitarian Fellowship.

Presenting the
1954 CADILLAC
Styled to be Copied for Years to Come...

...and as Thrilling to Drive as to See!

The new "Standard of the World" is now on display in our showroom. It is not just a new model, but a wholly restyled and re-engineered Cadillac—new from its more massive grille to its more distinctive rear deck.

It is lower and longer in silhouette... more modern and graceful in its body lines... and with greater majesty and dignity in every detail. Beyond question, it is destined to influence the design of motor cars for years to come.

Matching this greater exterior beauty are Cadillac's luxurious new interiors—more generously proportioned and more beautifully appointed than ever before... and executed in a dazzling array of gorgeous new fabrics and leathers.

And, what is even more remarkable, this wonderful new Cadillac is as thrilling to drive as it is to see!

A great new 230-horsepower engine has added new power and responsiveness. A vastly improved Hydra-Matic Drive provides even greater smoothness and flexibility. Advanced Cadillac Power Steering, now standard equipment on every model, brings with it a whole new concept of steering and handling ease. And new Cadillac Power

Braking* has introduced wonderful new motorizing safety and convenience.

This greater Cadillac beauty—and this finer Cadillac performance—are available for 1954 in three brilliant new series of motor cars... the remarkable Series 62, the distinguished Fleetwood Series 60 Special and the magnificent Fleetwood Series 75. And, of course, there is also the supremely beautiful Cadillac Eldorado.

These inspiring creations are in our showroom now—awaiting your critical inspection. We cordially invite you to see and drive them at your earliest opportunity.
