If you want to be sure your family gets needed hospital care... without financial risk to you...

Get protection that pays HOSPITAL SERVICES rather than limited cash!

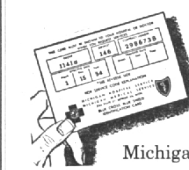

Unlike plans that give you limited cash to pay your hospital bill (with no assurance that you'll get enough cash), BLUE CROSS pays in hospital services themselves!

With 1 in 3 families facing hospital bills each year, you can easily see the importance of having hospital bill protection! And it's just as important to have enough protection! But what kind provides enough?

Is it the kind that pays limited dollars... with no guarantee that the dollars you get will cover the hospital services you need? (You seldom know in advance which services you'll need, or how much they'll cost!)

Or is enough protection the kind that pays in hospital services themselves? This is the whole idea of Blue Cross!

How Blue Cross protects you: When you have to go to a hospital, just present your Blue Cross - Blue Shield Identification Card. It's an A-1 credit rating at any Blue Cross participating hospital, good for all the basic hospital services you need. And every enrolled member in your family is protected equally... at over 200 Blue Cross participating hospitals in Michigan, with 99% of the general hospital beds in the state.

Your ticket to worry-free recovery!

How Blue Shield protects you: Rarely would you have a hospital bill without having a doctor bill. Ask your doctor ahead of time what his charges will be. Almost always, he can tell you. Still, protection against doctor bills is an important safeguard for your savings... and here is where Blue Shield comes in.

Blue Shield offers two basic plans—one, a straight surgical plan, the other, a medical-surgical plan. Under either plan, Blue Shield pays generous specific amounts directly to your doctor for thousands of surgical procedures. And, in non-surgical cases, under the medical-surgical plan, Blue Shield pays liberal amounts for your doctor's visits to you in the hospital. Often the doctor's full bill is covered.

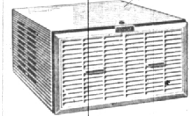

How to get Blue Cross - Blue Shield: Ask your employer, your union representatives, your Farm Bureau or Grange how you can get low-cost group enrollment. A company with as few as five employees may qualify as a group. And small groups can have just as much protection in large groups, at the same low cost... more protection a day! Write or phone your nearest Blue Cross - Blue Shield office.
