Mickey Mouse's 'Voice' Lives in Birmingham

Mickey Mouse was left virtually speechless recently when e received a birthday card from a Birmingham resident, was signed "From your hidden voice on your 25th Anni-orany"

versary."

That "hidden voice" was Ford Banes, now of 1719 Graefield, That "hidden voice" was Ford Banes, now of 1719 Graefield, artist, author, and accomplished bowler, who is a member of the Jam Handy Organization, producers of commercial motion pictures in Detroit.

It all began while Banes was later to be a support of the Jam Banes artistic talents are Studios of Hollywood as a story sequence director.

Walt Disney, the originator of Wickey's voice, was out of town particularly the support of the Jam Banes, artistic talents are always present and apparent, as always present and apparent always

frequently minickes the word of Mickey and other Disney characters while he explained story sequences of production sketches.

FORD'S IMITATION procest apparent the production will be prefect that after viewing the minished production Walt's only comment was, "Let Ford do it from now on."

After his "discovery." Banes did Mickey Mouse's voice in shorts, of the minished will be supported by the minished will be supported by the minished will be supported by the minished production. The work is so popular that six discovery. Banes did Mickey Mouse's voice in shorts, and the Beanstalfk," Ford Banes does Mickey's voice in an album for children, and with a recording cast including Billy Giffer T. W carton commercials Tilton.

Will Man Return To Caves To Live?

The sudden birth of the atomic age has turned man's thought back to caves, probably his first home and, according to some pessimists, possibly his last.

Aside from its long standing tourist value, the Mammoth Cave area of Kentucky now has an added interest. Its hundreds of miles of cave passages, most of which remain uncrawled by human knees, are estimated to be capable of housing confortably the entire population of Kentucky.

- caves for-one thing er another forms which hang from cave cell-during the past 75,000 years, unique Below them on the floors are deground areas and the depths of the thicker and more blunt staliantly the sea are the only two regions mites growing upward from the sea are the only two regions and the control of the sea are the only two regions and the depths of the sea are the only two regions mites growing upward from tally untexplored, Waller, P.
