Fingerprints Now Checked With Machine

Michigan State Police have placed in use a new fingerprint identification machine which reduces to minutes a task formerly requiring two or more hours of work by an identification expert.

Ticklers

AN AVERAGE of 400 sets of prints is received daily and each set is checked against the files to determine if the individual has a criminal background or if the identity of a person is being sought for other reasons.

By George

"I had it custom built! At first he was resentful, but now he really likes it."
