★ Smile a Minute ...

A big-game hunter in Africa was on his way back to camp one night when an enormous lion walked out of the jungle not 20 feet away. As the lion was about to spring, the hunter fired his last cartridge and missed. The lion sprang too far and landed 15 feet beyond the hunter, who then ran for camp and made it safely.

The next day the hunter went back of the camp to practice a little shooting at close range. He heard a strange noise in the brush and investigated. It was the lion—practicing short leaps!
