CLEANERS

rug cleaning

costs you no more than ordinary rug cleaning!

HOW OFTEN have you said to yourself, "My rugs just don't look right to me"? Maybe you had them cleaned by an ordinary rug cleaning firm. Maybe you just finished a long, strenuous ordeal trying to clean them yourself. But somehow, those rugs still lack the brilliance, richness and brightness they had when new.

Does that mean your rugs have lost their youth and sparkling beauty forever? Certainly not! It simply means that you have not yet discovered the most obvious way to make the beauty of your rugs be seen again... and that way is to have your rugs PROFESSIONALLY cleaned in Ridley's modern, scientifically equipped plant. Just consider what you get at Ridley's... more than 75 years of rug cleaning experience—the very latest and capable workmanship—and you get all these for the same price you would pay for ordinary quality.

We cannot emphasize too strongly that the mere surface cleaning of your rugs is not enough... every particle of dust, dirt, grit and grime must be completely removed before your rugs can look their very cleanest and brightest. So how about calling Ridley tomorrow to pick up your rugs?

"Clean-in-your-home" service... Tacked down carpets and upholstered furniture cleaned in your home by bonded experts. No fuss or muss. Phone for free estimate and advice.

"Home-beautifying" service... Let Ridley clean your draperies, curtains, slip covers, bedspreads and other household items. Finest quality. Make your home more cheerful.

What's New for Spring and Summer?

LeBow Suits Give You New Ideas in Fashion

... and Comfort

Proof that men's fashions can change—for the better—is to be seen in our Clothing Department right now, thanks to LeBow ideas. Here are a few examples:

MOHAIR—LeBow's blend of kid mohair (75%) and Australian wool (25%). The result is the press-retainingest, wrinkle-resistingest, really cool suit... for the cool, polished LeBow look. Fabric imported from England. **\$95**

COMOSILK—raw silk, well done by LeBow... pure silk with the air of authority nob found in copies. Almost unbelievably light (4 1/4 ounces to the yard). Comosilk is true luxury for summer. Fabric imported from Italy. **\$120**

DARK COLORS—like Charcoal, Walnut, Black-Blue and Black. These are the "bright" tones that are going to be most fashionable.

NATURAL LINES—straighter lines, mini-mized shoulders (but built-up enough to avoid that "bag of potatoes" look), patch pockets, center vent jackets. These are some highlights of LeBow design for Spring and Summer.

You are invited to view our collection of LeBow Suits—tomorrow.

To The Man... WHO LIVES IN HIS CAR

When was the last time you had a "close one" while driving between towns on these business trips of yours? Not long ago, we bet. The crowded conditions of today's highways are making "distance" driving very dangerous, as well as extremely tiring.

More and more of today's traveling executives are finding that a personal airplane is the answer to this problem. Probably someone you know has a plane, and undoubtedly it has found it to be a great help for business trips, as well as a convenient way to go North for these weekend parties and fishing trips.

Airplane prices start surprisingly low. A good used plane costs no more than that second car, and did you know that most light planes average 20 to 25 miles per gallon of gas?

Learning to fly an airplane is not difficult. Most persons, on an average, sole in ten hours or less of instruction, which certainly proves bearing either in your plane or ours, is made you to take advantage of the speed, reliability, and convenience of a personal plane.

We have for sale, both new and used planes, or if desired, we can furnish a plane and a pilot on a charter basis.

Why not stop out and find out more about this convenient and safe method of travel.
