UNWRITTEN LAWS

DON'T GET CAUGHT IN THE MIDDLE

A pedestrian who gets caught in the middle between two moving lanes of traffic is like a soldier caught in a cross fire. It's much harder to keep from being hit from two directions. Without eyes in the back of his head the pedestrian can't "keep his eye" on every car that misses him by inches.

Pedestrians should not start something they can't finish. Unless you are sure you can make it all the way across the street don't start. At a signalized intersection be sure there's enough of the green signal left to get you all the way over. It's simply not smart to make a start for a motorist to run you down through a simple error in judgment.

Must Relocate Sign

An oval sign designating the location of the new \$100,000 branch office of the Auto Club of Michigan must be moved from the public right-of-way, city commissioners have decreed. Through an error, the sign was erected on state land on Hunter Blvd. and this is in violation of a city ordinance.
