THE FORWARD LOOK

"7 top fashion designers find Chrysler Corporation's 1955 cars a stimulating new concept of good design."

S. L. Calvert President

Left to right: Tom Briggance • Ann Fogarty • Clara Potter • Lily Dalché • Nettie Rosenheim • Pauline Trigue • Claire McCordell

A special advance showing in New York, the celebrated fashion designers, above, saw a line of motor cars that was bright and alive and completely new. And what they saw, you can see soon!

They say Chrysler Corporation's new 1955 cars—Plymouth, Dodge, DeSoto, Chrysler, Imperial—the cars with the brilliant all-new concept of style we call THE FORWARD LOOK.

These experts found THE FORWARD LOOK a design that matches the moods, needs and attitudes of today's modern-minded motor car owners... and does it in a fresh and imaginative way.

They admired the all-new contemporary design, the *long, low lines* that America's motorists have been eager for. They were struck by the *look of motion* these cars give even when they are standing still.

The beauty and astonishing visibility, offered by the new-Horizon windshields, delighted them—for these are the only fully swept-back, fully wrapped-around windshields on any American cars today.

They were attracted to the *new interiors* and the compelling new *color*. They found wonderful convenience in the unique new position of the Powerlite Range Selector.

THE FORWARD LOOK that intrigued these famous designers will not doubt intrigue you, too. We believe you will find in these cars just what you've wanted, just what you've asked for and hoped for in your next motor car. In a few days, you will be able to see THE FORWARD LOOK. Don't miss it!
