## Fire Prevention Week **Gets Local Backing**

Fire Prevention Week, this year, is being observed the week of Oct. 3 through 9.

Its purpose is to direct public attention to the tremendous loss of life and property that results each year from fire, and to emphasize the safety measures which can substantially reduce these losses.

President Eisenhower, in his proclamation setting aside this one week of the year to this national effort, pointed out that safety of life and property is the responsibility of each of us, working together the year 'round in the community and in the nation.

PUBLIC AND Parochial schools, local businessmen, other public spirited citizens and your fire department have all joined together this year to sponsor a campaign against fire. This program will be carried on in the schools and in the business area of the city. The success of the program is entirely in our hands, yours and mine. By assuming our share of the responsibility, each of us can help make not only Birmingham, but America, safe from fires.

YOU DO NOT have to be an engineer or a fire prevention

YOU IIO NOT have to be an engineer or a fire prevention expert to prevent fires.

The National Board of Fire Underwriters points out that 90 percent of all fires are caused by "carelessness."

The solution therefore is simple if we are all careful. Just stop and think for a few seconds: Is your home safe from fire?
Play It Safe! There is a fire starting in the United States every 33 seconds. The next fire could be yours.

Prepared as a public service by members of the BIRMINGHAM FIRE DEPT.

### Claims Parking Lot Will Become Burden

To the Editor:
Your recent publication of our protest against the proposed parking lot at Brown, Pierce and Merrill streets has aroused a great deal of interest, and many citizens are signing petitions of protest against this project and ask that parking projects in Birmingham be not overdone to the detriment of the attractive appearance of this city.

Eghert from Gunderson and Debelek, traffic engineers, dated Aug.

1. 1954, gives some amaging facts about the use that can be expected from parking customers at the proposals for a projection of parking of the proposals for a projection of parking the proposals of the city of the city of the proposals of the project of the city.
