**Bronsons Tour Washington, Williamsburg on Trip East**

Washington, D. C., and Williamsburg, Va., were high points of interest in a week-long trip taken recently by Mr. and Mrs. D. M. Bronson and their children, Danny and Diana, of Lone Pine road.

The Bronsons toured Washington for a few days, admiring the cherry blossoms and viewing governmental landmarks which they felt were of educational interest for Danny and Diana.

In Williamsburg the Bronsons had more than a casual interest because of their love for antiques. Their home was built especially to complement their collection of valuable antique furniture.

While in Williamsburg, Mr. and Mrs. Bronson visited the Governor's Palace with all its original Early American pieces, and also toured the Old Shopping Center with its reproductions of early shops.

Getting together with Birmingham and Bloomfield Hills friends for fishing, golfing and swimming made a pleasant two and one-half week Florida vacation for the D.

We are losing our Gilbert Lake correspondents and need someone to replace her. Anyone with a "nose for news" who would like to write the column, please contact Mrs. Aten or the Suburban editor of The Eccentric.

**What The Doctor Ordered... For Himself!**

The doctor had owned his new Cadillac for about a month—and he was talking to a friend.  
"About the only recreation I get," he said, "is at the wheel of my motor car—driving to and from the hospital, my office, and the homes of my patients."  
"Other doctors, of course, have the same situation—and some of them told me what a big 'lift' they got out of their Cadillacs."  
"I decided to see for myself—and they were certainly right. I actually approach the day with a lot more zest—knowing that I am going to spend a couple of hours driving my Cadillac."

The doctor is experiencing, of course, what so many other professional and business men are experiencing—the wonderful lift to the spirits that a Cadillac brings a man.  
Try it sometime—and see for yourself.  
You'll find there's something about the way you feel as you take the wheel. You know there's a car under you! Solid, substantial, capable and protective. Just to sit there gives you a feeling of confidence and well-being.  
And when you start to move, the thrill is continuous. You almost never hear the sound of that great engine, except when it answers

a smart touch to the throttle. Steering is little more than the response to your thought. You just ride and relax.  
We hear it every day: "I drive my Cadillac for rest and relaxation."  
Why not come in today—and make the test yourself. We'll give you the keys and a Cadillac—and the "rest" is up to you!  
P.S. It's only fair to warn you: You probably won't find it easy to give up the keys. Some people simply refuse!
