Modern 12-volt electrical system!
The only car in the low-price field with the extra energy of 12 volts . . . twice the electrical punch!

Faster, stronger cranking for cold-weather starts and a "fatter" spark for faultless high-speed operation.

Highest standard compression ratio in its field!
Chevrolet's compression ratio is 8 to 1, to bring every possible ounce of power and extra miles out of every gallon of gas.

Requires only four quarts of oil!
Chevrolet's V8 engines are so efficient they need only four quarts of oil . . . so you save on every change!

Highest horsepower per pound!
These great V8's weigh far less than any similar engine in America, top the low-cost field in power per pound!

Shortest piston stroke in the industry!
Three-inch stroke reduces cylinder-wall friction, generates less heat, permits more compact design.

The pistons do far less traveling per mile . . . that means less engine wear, lighter loads on bearings.

It's the valve-in-head V8 as only the valve-in-head leader can build it!
