**"Best car manufactured in America today"**

That's what Floyd Clymer, famous automobile authority, said about Chrysler in Popular Mechanics (October)

Mr. Floyd Clymer

THE CHRYSLER NEW WORLD TOURIST HARDTOP

"I have tested many fine automobiles over all kinds of terrain," writes Mr. Clymer, "and in my judgment Chrysler is the best automobile manufactured in America today."

When you compare this Chrysler with the other two major cars in its price class, you will be in for an electrifying awakening. Because this is power driving as it was meant to be.

You push the "D" on the Pushbutton PowerLite Drive and a mighty airplane-type engine whisks you away in an instant. There's a new, wonderfully easy feel-of-the-road with full-time PowerPilot Steering . . . a straight, sure, velvety sense of safety in the stops you get with PowerSmooth Brakes . . . a world of authority in the tremendous response of Chrysler's exclusive airplane-type Fire-Power V-8 engine!

Just one look at this car tells you the power's there. You see it in the flaring "PowerStyle" lines . . . in the flight-swept look of its rear deck and fenders.

Let us put you behind the wheel of the "PowerStyle" Chrysler for just 15 minutes this week. Compare its all-around performance with its two price competitors. Then you'll know why "the best car manufactured in America" is your best buy! Come in or call us today!
