Sandra and her parents have just returned from spending the weekend at the Bonham home in Ohio.

**Guidance Clinic
Alters Name**

For better understanding of the availability of its service, the Oakland Child Guidance Clinic is the new name selected last week by the board of directors of the Pontiac Child Guidance clinic at 113 Franklin boulevard, Pontiac.

This change is intended to eliminate confusion about the area served by the clinic," explained Dr. Robert J. Mason, board chairman.

"With the opening of the Macomb Child Guidance Clinic last month, we are now able to devote our service exclusively to residents of Oakland county."

Cadillac

The Great Practical Luxury!

This message is addressed to those who have been thinking about purchasing a Cadillac—but who, for one reason or another, have not considered acting on the impulse this year.

For you, there is interesting and valuable information in the paragraphs which follow.

In the first place, there is no reason why anyone should ever put off ordering a Cadillac—once the decision for ownership has been made. For a Cadillac represents one of the *soundest* and *most practical* investments in the automotive world.

The lowest-priced Cadillac, for instance, is surprisingly close in cost to many so-called medium-price cars—often within a few dollars.

And this is only *half* the picture, insofar as

cost is concerned. For when the time comes to sell your Cadillac, you will find that the car has held its value far beyond anything you could logically expect.

Authoritative price figures, based on year-after-year studies, reveal that a Cadillac may be expected to return its owner a larger share of his original investment than any other motor car built in the land.

And then consider Cadillac's economy of operation and upkeep.

The car will run as far on a gallon of gasoline as most standard automobiles—and it is so soundly built and engineered that it is all but free from any save routine service needs.

And here is the most interesting news of all

If you act quickly, the chances are that you can get early delivery of a 1955 Cadillac!

It is true, of course, that we have a backlog of orders for new Cadillacs—but many of these are for future delivery or for special combinations not currently available.

So—if you have thought of owning a Cadillac—come in now. Because of our low used car inventory, we are in an excellent position to make you a liberal allowance on your present car—and, as we said, you can probably get your new car much sooner than you have believed possible.

We have a Cadillac waiting to give you the most thrilling demonstration of your life. Why not come in today?
