One Thing Men Agree Upon!

It is in the nature of things for men to hold opinions and to argue and dispute.

Football, baseball, politics—guns, golf clubs, breeds in dogs... name a best, and you have an argument.

And so it goes through boats and trains—and horses and tennis and makes of planes.

But when it comes to motor cars, you'll seldom get an argument if you name *CADILLAC* as the car of cars.

That's about as close as men come to universal agreement. And with good reason.

Who could look about him at the various

styles in motor cars—and not give the nod to Cadillac for its great dignified silhouette?

Who could take the wheel of this dynamic performer—with a hundred horsepower added to its engine for safety alone—and not crown it the king of the highway?

Who could relax in its luxurious comfort for a mile or five hundred—and fail to recognize it as the finest riding car on the highways?

And who could look back over its illustrious past—or look about him at the people who own it today—and not acclaim it as the most distinguished car in the automotive world?

We feel assured that you, yourself, are aware that Cadillac is the car of cars. But that is but *part* of the wonderful Cadillac story for 1955.

There are economy—and value—and dependability. There are long life—and resale value—and freedom from repairs. And there are all the other sound, practical reasons for owning a Cadillac.

Come in and see us. We'll give you the whole story—and the keys to a car. Thirty minutes at the wheel... and you'll understand why there's no argument about a Cadillac!
