Songs Told For Carter Concert Here

"Swing Low, Sweet Chariot" and "Roll Jordan, Roll" are two of the songs chosen by Cecilia Carter, Negro spiritual singer, for her concert here March 20.

Tickets for the program, being arranged by a committee of six localities, are on sale for the afternoon event. It will be at 7:30 p.m. in the First Baptist Church sanctuary.

FAMILIAR SPIRITUALS, as mixed with rarer ones that Miss Carter, a Mr. Clements resident, learned from her mother in New Orleans, while among the 25 numbers are four gospel hymns, such as "Bless Your Care."

A Detroit supervisor of music and an organist in a Detroit church of her race, Doris Tarter will accompany the singer.

Committeewomen are Mrs. William E. Eusey, Mrs. Thomas S. Parker, Mrs. J. Rowland Quinn, Mrs. Norman Lytle.

Bryan Goes Skiing With Hostellers

Carl Bryan of Harmon will be among hostellers going skiing in the Laurentine mountains in Canada next week. The group leaves the Michigan Central depot Saturday, loaded down with skis and skiing equipment. They'll have four hours of instruction each day, plus extensive low-riding and easy-skiing down long slopes.

HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highway. They're setting up higher sales than ever before in history — topping the popularity that has already made Buick one of the "Big Three" on national sales.

Who says you can't have getaway and gas saving too?
(maybe you'd better try Variable Pitch Dynaflow!)

As any automotive engineer will tell you, the goal in automatic transmissions has long been a design that would give top acceleration and top gas mileage—and still be absolutely smooth.

Well, it's easy to step up acceleration, or gas mileage—but tough to do both together—unless a lot of gearshifting takes place, which cuts down on smoothness.

So Buick engineers looked to aviation for the answer—and brother! what a wondrous new magic they came up with!

They took a leaf from the airplane's variable pitch propeller—which switches the pitch of its blades one way for quick take-off—and another way for better gas mileage aloft. They brought the same principle to Dynaflow Drive—to the twenty

propeller-like blades in the Dynaflow "stator." They engineered these blades to swivel like the blades of the plane propeller—and with the same results.

In cruising and in all normal driving, the blades are angled for fuel economy—and you get a lot more miles from a tankful of gas.

But when you have to move instantly—when you need quick getaway, or a sudden burst of safety-surge power to get out of a tight spot on the highway—you just press down that gas pedal, and you're off in a split second.

You've never felt anything like it before—because there's never been anything like it before in an automobile.

It's action that's sheer thrill—action that's backed by the highest '58 horsepowers in Buick history—action that's sending Buick sales soaring to record-high levels.

Come in and try it, at the wheel of a Buick SPECIAL, CENTURY, SUPER or ROADMASTER. You have nothing to lose—and the most thrilling buy of the year to meet.

**Dynaflow Drive is standard on Roadmaster, optional on other Buick models.*
