**To Provide Birmingham With MORE CENTRAL PARKING AT
No Added Tax Cost—And Gain A New Dedicated Park!**

**THE NEW PARKING LOT COSTS
YOU NOTHING IN TAXES!**

This shift of the park to the south and the creation of the grievously needed parking lot will not add one cent to your present tax structure. The manner of financing the proposed enlarged Civic Center is so planned that revenue from the metered parking space and assessments against the benefited properties will pay off all costs in a relatively short time. This gives Birmingham a parking lot AND a park without added tax burdens to the homeowners!

**New Park Will Serve As Buffer
Against Spread Of Business Area!**

No one would quarrel with the fact that Birmingham continue to have a lovely, restful, central park. The proposal includes such a park. An official park named and dedicated for someone who gave much to make this the community which it is. The shift of location one block south opposite the Community House puts the park more ideally located than at the present. **THE NEW PARK WILL THEN SERVE FOREVER AS A BUFFER ZONE AGAINST THE ENCROACHMENT OF BUSINESS INTO THE RESIDENTIAL AREA.** This important consideration is worth every consideration in the proposed location shift. You can accomplish this by backing your City Commission and voting "YES" April 4th.

**EVERYONE WILL BENEFIT BY THIS
NEW PARKING LOT AND PARK**

You will create for yourself and your neighbor a better Birmingham by voting "YES" for the relocation of the park on the ballot April 4th. By backing your City Commission with their plans YOU open the way for more convenient parking for yourself and your neighbors. You give your Birmingham merchant a vote of confidence and assurance that his business place is the place of your choice for shopping. You will create an enlarged Civic Center with ample parking AND you give to your community an officially dedicated park more centrally located which will encompass the Community House as a part of the Civic Center.
