More Fine-Car Features than any other car priced so low!

FINE-CAR POWER!
 Pontiac's husky 200-horsepower Strato-Streak V-8 with four-barrel carburetor, optional at low extra cost, delivers more power than any car within hundreds of dollars of its modest price. And road records are proving that all this extra-power is teamed with the greatest economy and reliability in Pontiac history. There is no more modern, more advanced power plant in the industry.

FINE-CAR STYLE!
 No car at any price is so beautifully distinctive. Pontiac's future-fashioned Twin-Streak styling and Vogue Two-Tone jet set it apart with the freshest fashion on the road.

FINE-CAR SIZE!
 Pontiac is a big car where it counts—with a long, road-hugging 122" or 124" wheelbase. On any road, at any speed, you enjoy the feeling of genuine fine-car size and belt.

FINE-CAR COMFORT!
 Pontiac's extra size means big-car comfort—room to stretch out and relax. Wide-stances rear springs and Shock-Front chassis float you along in luxury style. And interior appointments are straight from the fine-car book.

If you were to guess Pontiac's price on the basis of its style, performance and size, you'd surely guess hundreds of dollars higher than its actual cost. Pontiac measures up with the finest on any point of comparison—except price.

It's a simple matter of fact that you can buy a big, powerful Pontiac for less than many models of the lowest-priced cars and much less than stripped economy models of higher-priced makes! That's why buyers from both ends of the price scale are switching to Pontiac in record-breaking numbers, why so many former high-price buyers are learning that to pay more than Pontiac's modest price is sheer extravagance.

All this is very easy to prove with a close inspection of Pontiac's luxury and quality and a few miles commanding its mighty 200-horsepower Strato-Streak V-8. Come in soon for the clinching facts and figures. If you can afford any new car, you can afford a Pontiac—and step directly into the fine-car class!

Can you see, steer, stop safely? Check your car—check accidents.
