

Just as one necessarily eats several times daily to keep the body going, so one ought to "eat of spiritual bread" at least once daily to keep the "inner man" in healthy condition. This is very IMPORTANT!

## We Heard It Said By:

CHARLES MCCURDY, former Birmingham resident now living in Jamaica, Vermont, in a letter read at the 25th reunion of the International Relations class: "I believe Ruth Shain and I are the only living members of a small group of friends who one afternoon discussed at Cranbrook house, the possibilities of a Birmingham Community House. She helped gather neighborhood groups all over town to interest themselves in plans. It is due to the tactful and sympathetic work of Ruth Shain that these neighbors grew into a united and far-seeing community society."

## Walnut Lake Cubs Will See Hockey Play-Off Movies

Movies of the Red Wing Hockey playoffs will be seen by the Walnut Lake Cub Scout Pack when they meet next Thursday, May 26. One of the Red Wing players will be present to talk with the boys.

Boys and adults of the community are invited to be present. A new committee has been formed to recruit den mothers and new committee members for next year. Under the new recruiting system, den mothers will serve only two months of the year.

AT THE last meeting, which was a tribute to this year's den mothers committee, Richard Kreuz was initiated into the den as a new Boheut.

Den 5 entertained the audience of cubs and parents with a skit, "Careless Hunters and Careful Cubs," a lesson on preventing forest fires, set against very effective den-made scenery of outdoor life.

Den 3 gave a fashion show, portraying John Powers models, with improvised wigs and makeup, and showing, with much poise, original creations improvised from mother's clothes.

Running commentary on the fashions was provided by den mother Mrs. Robert Kreuz.

## IT'S A SMART MAN WHO WEARS A VIRACLE TROPICAL OF DACRON/WOOL

Today's well-dressed man no longer envies woman's lightweight way of dressing for hot weather. With new lightweight fabrics, he can look cool, feel cool and always present an impeccable appearance.

For example, says this recent DuPont ad in *The New Yorker*, the Viracle tropical, a skilful blend of 55% Dacron-45% worsted expertly tailored by Hart Schaffner & Marx. Dacron helps give this airy, 8-ounce fabric strength and stability to retain its smart tailoring. It has an innate resistance to humidity and rains that spoil a suit's neat press. And Dacron "bounces back" quickly from wrinkling. We have a fine selection of Viracle tropicals. You'll be smart if you stop in and choose... real soon.
