How to be sure you are making the best buy in a new truck

- A new truck is an important investment. If you want to be sure you're getting the best buy, you've got to consider a lot of things: price, power, operating economy, good appearance—to mention only a few.
- Take price, for instance. Wouldn't it help you to know that you can buy a Dodge for surprisingly little money? Could be you didn't know Dodge trucks cost less than most other makes.
- Wouldn't it help you, too, to get the whole picture on truck power? The fact that Dodge Power-Dome V-8's outpower every other leading truck in the low- and medium-tonnage fields surely is important to your decision.
- And there are other Dodge advantages you'll want to think about—like the business-building beauty

of Forward Look styling, and the long life that spreads low initial cost over years of dependable service.

➤ It all adds up to this: To be sure of your best truck buy, take a few minutes to talk to your Dodge dealer. Just a phone call will put the wheels in motion.
