We met October at its brightest and best on a recent day pent at the Waterloo recreation area near Chelsea. The last of the swallows circled overhead, a sharp-shinned she ridges and along the winding tree-lined drives. Late asters, purple and white date tall bouquets among the pecies variously classified including by the same of the swallows the prime for its sweet nut. You can't with disaster.

Did you ever stop to think, there's often a good reason why one product costs a little more than another?

Take your property or liability insurance, for example. Suppose your policy is suddenly put your policy is suddenly put to the test by a serious loss. A ruined house. An automobile accident involving serious injuries. A home broken into and robbed. It's too late then to

find out you're not coveredor not adequately covered.

That is where your independ insurance agent comes in. His insurance agent comes in. His job is to see that you are protected with the broadest possible coverage at the lowest possible cost. He likes bargains, too—but only if they are in your too—but only if they are in your best interest. Because he represents not one, but several companies, he can choose the policy that best meets your needs. And when serious trouble comes, he is there to protect your interests to the fullest.
