# Heading for Our Seventh Straight UF Victory

What's happened to "the biggest idea in charity fund-raising" since the summer day in 1949 when the late Frank R. Pierce of Birmingham agreed to head the nation's first unified campaigh?

An ardent community worker and one of the most dynamid business leaders in the country. Frank Fierce helped light a torch that has been picked up in more than 600 cities across the United States.

In the metropolitan raa it serves, from Bloomfield Hills to the Detroit River, the United Foundation to date has raised more than \$71,000,000 for hearly every conceivable community need and over 150 health and service agencies that once conducted a myriad of independent and costly solicitations.

tations.

With the end of World War II, people of the area, like Americans everywhere, were besieged by an increasing number of fund-raising drives.

AT LEAST 50 ANNUAL personal solicitations hit the citizenry, on the streets, at their work and in their homes. Detroit employers received as many as 134 separate requests for in-plant solicitations, corporation gifts, or, as was true in many cases, both,

cases, both.

Community leaders were asked almost weekly to head, organize or personally assist in some worthy appeal for funds.

Local agencies, embodied in the Community Chest, were faring even worse. The failure by \$300,096 of Detroits 1918. Chest drive pointed un the growing deteriors.

Chest drive pointed up the growing deter oration of existing fund-raising machin

ery.

It was in that year that the first rum-blings of a plan to consolidate giving be-gan in Michigan.

HENRY FORD II, president of the Ford Motor Co., and Ben Young, vice president of the National Bank of Detroit, called or the National Bank of Detroit, called together a group of representative citizens throughout the state to find an answer to the coatly diplication of campaigns.

From this meeting the United Health and Welfare Fund of agencies, evolved.

From this meeting the United Health and Welfare Fund of Michigan, with 23 agencies, evolved.

For a number of reaions, chief of which was the inability to get Detroit to participate, the UH&WF developed into little more than a board of directors, a campaign organization and a conglomeration of individual towns and constites, each working out its own effort to combine at least the health appeals into a single solicitation, with no actual campaign in sight.

Then Ford, Young, August Scholle, president of the Michigan State CIO Council; C. E. Wilson, president of General Motors; John S. Coleman, president of General dell W. Anderson, president of Bundy Tubing Co., lasked Walter C. Laidfaw to organize a united drive in Detroit. Laidlaw had been for 12 years the director of Community Chest and War Chest Drives.

AIDLAW SURVEYED THE SITUA-

LAIDLAW SURVENED THE SITUATION and agreed to a Founders Meeting on Dec. 31, 1948. Organization and campaign committees were appointed.

On Jan. 4, 1949, the United Foundation was incorporated under Michigan laws as a non-profit organization for unification of campaigns. Within 30 days, a widely representative 75-man civic board had been named, a campaign organization headed by Ben R. Marsh.-then vice president and general manager of the Michigan Bell Telephone Company, was functioning. and a "pilot campaign" was under way.

This mock-up model was confined to 200 of the larger industrial and business firms employing more than 300 people, and to

employing more than 300 people, and to 1,000 special gift prospects which included philanthropic foundations, smalle philanthropic foundations, smaller corpor ations, and other wealthy individuals.

THIS, THEN, WAS THE EXPERI-MENTAL vehicle whose performance, or lack of it, would furnish either the basis

### Still Is Time After Southfield Charter Vote

In these columns some weeks back, we commented on the perplexing problem which might be posed to some Southfield township voters next December 12 when they vote out their proposed city charter. The charter would permit immediate participation in the proposed Evergreen interceptor project. Most township residents would approve the interceptor were that only to be voted on. Yet a considerable number of these might not want to vote affirmatively on the charter itself. What an unfortunate situation, we said, that these two matters had to be on the same ballot.

The other day, one of the township officials suggested to us that perhaps some persons might get the idea from the editorial that they would not have another chance to vote on the interceptor question.

for attempting the heretofore "impossi-ble" (unification of all organized personal solicitations for health and community services), or kill thinking about united

services), or kill thinking about united/fund-raising.

The miniature drive representing 23 agencies opened on Feb. 7, 1949, and ran for 21 days. It raised \$550,000 more than the same agencies had raised from the same sources by separate appeals in 1948. This acceptance and the enthusiastic support of press and radio convinced the civic industrial and labor leaders on the

civic, industrial and labor leaders on the board of directors that the United Foun-dation could and should achieve complete unification.

What's more, the fact was firmly estab-What's more, the fact was firmly estab-lished that labor and management had common stakes in the community and, given an intelligent plan and method, would form a close-working team to reach the common goal.

THE DRIVE WAS REGARDED as a phenomenal success and a definite indica-tion of what people in the metropolitan

tion of what people in the metropolitan area lactually wanted.

When the success of this "pilot campaign" became evaluated properly by others, the cry was taken up on all sides, and most of Detroit and surrounding communities joined in calling for the unification of all personal solicitation drives on an area-wide basis.

The first Torch Drive, having united 143 appeals, opened Oct. 18 and ran through Nov. 10, 4949. Its success in reaching 104 per cent of quota was made possible by the unprecedented cooperation

possible by the unprecedented cooperation of every one of all economic and social

Frank Pierce, then president of Dear-

Frank Pierce, then president of Dearborn Motors, Inc., headed the drive and his volunteer aids surprised everybody with their zeal and results.

More than 30,000 Detroiters worked actively in putting that Torch Drive over by giving their neighbors and colleagues an opportunity to contribute. Another vastly important result of the huge band of volunteers was the educational job they performed. They told the United Foundation story in every office, factory and doorway in the city.

IN 1950, WITH A GIGANTIC "Give Once for All" campaign, this time for 148 agencies, the Torch Drive again was a tremendous success. Against a goal of \$10,300,000, relieved Detroiters subscribed \$19,404,000

With 150 agencies under the UF colors, the 1951 drive again exceeded its previous figure by more than \$1,000,000 despite

adverse economic conditions.

Under the leadership of John S. Bugas,
Ford vice president, this 1951 drive resulted in the most magnificent effort in the city's history.

the city's history.

The \$11,455,000 collected set the pace for the entire country and confounded experienced fund-raisers who had set the "potential high" at \$10,000,000.

In [1952, United Foundation topped its own record and raised \$12,511,000 against a qudia of \$11,900,000. More volunteers are under the participated than ever before, and the drive [was more closely organized in all areas.]

THE 1953 CAMPAIGN sought \$13,100,-

THE 1953 CAMPAIGN sought \$13,100,000—the highest goal ever set in the nation. The drive not only realized its goal, but surpassed it by a phenomenal \$500,000. All local and national records set by that 1953 campaign toppled in 1954 when the Torch Drive under its general chairman, Don E. Ahrens, G. M. vice president and Cadillac general manager, raised \$14,008,000.

008,000:

We have just launched our seventh
United Foundation effort. As with the
other six, we have every expectation our
string of UF "victories", which Frank
Pierce started back in 1949, will remain

SO, TO CLEAR UP ANY possible mis-SO, TO CLEAR UP ANY possible misinterpretation, let us hasten to say right
now that the interceptor could be put up
to a vote at a subsequent special election.
Just as long as that date preceded the
April decedline when Birmingham, Bloomfield fills and Bloomfield and Troy townships
would have to decide whether to
make additions to the Birmingham plant
to satisfy a state order to cease River
Rouge pollution.

Should these four municipalities decide to go for the plant additions because Southfield couldn't make up its mind by the deadline, it would mean they would pull out of the interceptor. That would make Southfield's financing of the lower end of the Evergreen very expensive, perhaps impossible.

"Whew! Whatta Cliffhanger!"

### HORSE SENSE AND NONSENSE

By ALICE E. MORGAN

While fall brings many joys to the hunter, to the owner of a hunting dog it has its hours of unpleasantness. In areas surrounding big cities, like Detroit, the hunting dog frequently becomes the hunted as the game season opens.
