We Heard It Said By:

MRS. EDWARD H. LLOYD, president, Southfield Council PTA: "It is wonderful to be an active worker in PTA. It is an association with definite objectives, it provides an opportunity to be of service to our children, who are the future custodians of democracy. If sometimes we are called upon to take on what seems to be too much, it is because all parents have not yet availed themselves of the opportunity to be active in this great movement. We are working for children, yet the rewards to ourselves are many. PTA provides opportunities for personal growth, leadership experience, pleasant social contacts, good fellowship, education in family relationships and in the growth and emotional development of children. The benefits to ourselves and our immediate family cannot be measured. This is membership month. Join your PTA."
