### Urge Paving Contractors to Honor Private Drives Bid

LATHRUP—Authorization was made Monday night by council to pay Don Wells Inc., \$31,000 for paving work completed in the city, but not before council members were assured that private driveways would be given early attention. Wells, successful bidder for the 16-street project also at the time of his bid had promised paving of any private drives along those streets that were authorized by homeowners.

BOTH Councilman Lantz L. Mackey and Mayor John G. Campbell told Wells that paving of all driveways requested by owners on a private contract basis, would have to be completed.

"We'll be done in about a week," said Wells. "Not if those driveways aren't in," said Mackey.

The city might consider it part of their business if those driveways aren't put in, (when the balance of Wells' bill is due), said Campbell.

WELL'S bid for the entire project was \$51,000. About \$20,000 of this has been collected by assessment and the rest will be available in about two weeks when the bonds are sold, according to Leonard A. Watchowski, city administrator.

A \$767 bill by Arthur W. Gillespie, engineer for the project, was also authorized Monday night.

At the same meeting council was to appoint National Bank of Detroit as paying agent for bonds to be issued to pay for the project but Councilman Richard N. Cogger questioned at \$25.00 expense of transfer that had not been

gather information on the extra charges and report his findings at a recessed meeting to be held Friday night.
