The Silver Lining

Unconfirmed reports from out Dearbornway are growing concerning an event which car which Ford's Motor Division is division is coming. The Dearborn News is saying that some owners are going to have to sign agreements to let the company have their cars back, as it seems that the cars were purchased using loans when the owners were in need of a new car.

The Mexican government recently cancelled the Mexican Highway Race, giving as the reason "be uncontrollable crowds which line the course in many spots.

If someone could only think of a way to cancel the Great American Highway Race because of the uncontrollable drivers..."

One of the more overlooked phrases in this language of ours is, "you know". If we all knew what the writer or speaker is telling us, why must we waste our time saying "you know"?

Worse than this obvious admission of state bias and assume what he has to say is clearly absurd, it would be need to be a fool to say we should do it.

But when he says, "And as you know," the club locker room has been completely refurbished for pleasure of club members:" and we DON'T know it, it makes us feel as if we aren't as up to the world as we should be.

On the other hand, by saying, "As you probably already remember, or excelled, etc." etc. etc., he becomes we were asked on the committee for this re

And if we hadn't known it, who's going to be the first to tell him his assumption was wrong?"

HORSE SENSE AND NONSENSE

By Alice E. Morgan

Your chances of becoming a statistic instead of remaining a citizen should be pretty good this coming weekend. For there will be three days, Saturday, Sunday and Monday, in which you may have ample opportunity to get yourself and your family killed on the highways.

The two things that are doing this are, first: The day after Thanksgiving, and second, the day after Christmas. The day after Thanksgiving, seldom fails to produce more than its usual quota of deaths, and the day after Christmas, more than once, has been the subject of a frontal attack by the police who have been able to stop the traffic but not the fatalities.

The day after Thanksgiving is the day for going back home, the day after Christmas is the day to go up to the mountains, the day after both is the day for shopping.

"THAT ROOM"

By horizontal movement, the many automobile drivers during the holiday period have turned that room into a scene of the most horrible and deplorable kind. People have been killed in that room at least half a dozen times during the past week, and the authorities believe that it will continue to be a source of danger for some time to come.

The scene that is to be expected in that room for the next few days includes a congestion of traffic, the presence of pedestrians, and the possibility of accidents occurring at any time.

The day after Thanksgiving, the day after Christmas, and the day after both are the days for making your way through crowds, and the day after all of them is the day for watching out for the traffic and the people.
