Sept. 12 Vote is Vital to Southfield School District's Future

Area's Rapid Development Ahead of Schools' Growth

EDITOR'S NOTE: This is the first of two articles concerned with the Southfield School District as it relates to the coming $3.6 million bond issue.

T. BRUNO J. KEANS

This is a critical period of development for the Southfield Public Schools. In the process of growth, the small rural school district has experienced rapid expansion of both students and facilities. As the student body has increased, a number of new additions have been made to the existing buildings. In recent years, three new buildings have been built to meet the growing needs of the community.

In 1953, the $1.0 million bond issue was sold, providing funds for the construction of a new high school and the addition of two new elementary buildings. The new high school was completed in 1955, and the two new elementary buildings were completed in 1956. The bond issue was followed by another bond issue in 1957, which provided funds for the construction of a new junior high school and the addition of a new high school building.

In 1959, the bond issue was sold, providing funds for the construction of a new junior high school and the addition of a new high school building. The new junior high school was completed in 1960, and the new high school building was completed in 1961.

In 1962, the bond issue was sold, providing funds for the construction of a new elementary school and the addition of a new junior high school building. The new elementary school was completed in 1963, and the new junior high school building was completed in 1964.

In 1965, the bond issue was sold, providing funds for the construction of a new high school and the addition of a new elementary school building. The new high school was completed in 1966, and the new elementary school building was completed in 1967.

In 1968, the bond issue was sold, providing funds for the construction of a new junior high school and the addition of a new elementary school building. The new junior high school was completed in 1969, and the new elementary school building was completed in 1970.

In 1971, the bond issue was sold, providing funds for the construction of a new high school and the addition of a new junior high school building. The new high school was completed in 1972, and the new junior high school building was completed in 1973.

In 1974, the bond issue was sold, providing funds for the construction of a new elementary school and the addition of a new high school building. The new elementary school was completed in 1975, and the new high school building was completed in 1976.

In 1977, the bond issue was sold, providing funds for the construction of a new junior high school and the addition of a new elementary school building. The new junior high school was completed in 1978, and the new elementary school building was completed in 1979.

In 1980, the bond issue was sold, providing funds for the construction of a new high school and the addition of a new junior high school building. The new high school was completed in 1981, and the new junior high school building was completed in 1982.

In 1983, the bond issue was sold, providing funds for the construction of a new elementary school and the addition of a new high school building. The new elementary school was completed in 1984, and the new high school building was completed in 1985.
