

Bloomfield Village School Storybook, Art Tour, Teas For Mothers in Activities

For first grade Mrs. Pearson read the story of Snow White and the Seven Dwarfs. Then they drew a picture of the story.

The third graders are going to have a play. Thursday they saw a horned toad.

The combined fourth-fifth grade enjoyed a field trip to Cranbrook Art Museum on September 14, to see the exhibit of Cranbrook art students work for the past year.

WELCOME visitors in fourth and fifth grade room for all of the first two weeks of school were on car and water. They are horned toads, sent to Diane Worthington by her uncle in Oklahoma. Oscar can do a trick—he can stand on his front legs and wave his back legs up in the air. Since they are beginning to show a tendency toward hibernating, Diane is going to slip them back to Oklahoma. All the children in the room have caught grasshoppers and other insects to feed Oscar and Water.

Our music corner has been started, but there is still work to do on it. Ten of the fifth graders tried out for pipe club.

Winifred Burgis celebrated her tenth birthday Sept. 16, with fifteen friends.

To provide extra protection against these hazards Ford developed the new Lifeguard features described at right.

Ford's new Lifeguard Design features are: a new steering wheel, with deep-convex design, to act as a cushion in the event of an accident . . . double-grip door locks to reduce the chance of doors springing open under shock . . . optional padding for instrument panel and sun visors to help lessen injuries from impact . . . optional seat belts to help keep occupants securely in their seats.

But there is still more wonderful news! Ford brings you Thunderbird power in a modern deep-block Y-8 . . . Thunderbird beauty, too . . . rich new interiors . . . quality workmanship throughout.
