Councilman Mackey Answers Editorial

TO THE EDITOR:

The only way the electors can see their elected servants in action is by attending the Council meetings. Here, in Lyndhurst, the council of a newly created city is faced with the necessity of getting things done quickly and efficiently. Preparing legislation for the budget, safety, and welfare of the community cannot be accomplished by debate. Therefore, the Council members must study the subject carefully before considering the subject which is being proposed.

Many doubtless wonder in the community what is happening in the council. The public is having a hard time and they do not want to be held responsible for the actions of their elected representatives without knowledge of the facts. I feel that the public has a right to know what is happening in the council. I believe that a council meeting should be open to the public, and that the council members should be held accountable for their actions.

EUGENE SWAN, Southfield township supervisor, hereupon agrees to consider the actions of the council in the light of the public's needs. I believe that the council should be held accountable for their actions.

Club, 311 East Grand River Ave., Detroit. The program will consist of a get-together, a picnic, and a meeting planned in the interest of the kids. The event is expected to be well-attended.

Concerned With Children's Safety

I have been concerned with the safety of children in our community. In recent years, there has been a significant increase in the number of accidents involving children. I believe that the city should be doing more to ensure the safety of our children. I am concerned that the city is not doing enough to address this issue.

Councilman Richard Cogger Disagrees With Eccentric

TO THE EDITOR:

The editorial page of our local newspaper is full of nonsense and胡言乱语. I disagree with the editor's views on many issues. I believe that the editor is not providing a fair and balanced view of the city and its issues. I disagree with the editor's view on the need for more police officers in the city. I believe that the city already has enough police officers and that we should focus on other issues.
