The two boys were being tended while their mothers were doing modelling. Gwen for an auto firm and Vivian for a yachting manufacturer.

Match your electric washer with an electric clothes dryer

Wash day becomes extra easy when you add a new electric clothes dryer to your electric washer. Here's why: There's no heavy wet wash to haul up the stairs and hang on the line. You have only to load the dryer and flip a switch. Out comes the laundry, fluffy-dry, sparkling clean. Old-fashioned line-drying can't compare with the carefree, modern way to dry clothes—electrically!

First Call Out For Torch Drive Volunteer Staff

The need for volunteers to make Torch Drive collections in neighborhoods was stressed this week by Mrs. J. Rowland Quinn, campaign director. "We need volunteers most of all," she said, "but will have a need for others to help here in our Briggs building office. Any woman in the specified area who can devote some time to this task may call me and be assured that her services will be most welcome." Mrs. Quinn said it would not be necessary to have a car to handle the solicitor post, when the drive opens Oct. 18, stating that a post-several young mothers did the work last year during their afternoon walks with the baby.

"THE MORE volunteers we can get, the less burden the task becomes. We should have enough in the specified area who can devote some time to this task may call me and be assured that her services will be most welcome." Mrs. Quinn said it would not be necessary to have a car to handle the solicitor post, when the drive opens Oct. 18, stating that a post-several young mothers did the work last year during their afternoon walks with the baby.

During the remainder of the month, area captains will call meetings to distribute necessary information and working material.

Mrs. Quinn concluded by saying that workers interested in visiting some of the establishments receiving Torch Drive aid should contact her for arrangements.
