William McCurdy's 'Sailboat' Damaged at End of Boat Trip

Many hours were spent by the William McCurdy of Lanegan drive this spring and summer, putting their Swedish built sailboat "the Challenge", in tip-top shape for summer fun.

Their vacation began by competing in the Mackinac race. From Mackinac island they headed for the Les Cheneaux Islands, where they had a rendezvous with other seamen. Their sons, Skip and John, enjoyed the many little islands in their dingy.

The McCurdys' 17th wedding anniversary was celebrated at Harbor island. Their trip took them on to Tobermory and down the coast of Canada. The marvelous vacation was nearing its end when they left Port Huron. Darkness had descended and all was quiet when their boat hit a large log. They had only minutes to scramble to their dingy before the "Challenge" sank.

The boat was raised from the watery depths and the McCurdys look back on the wonderful time they had, not at the work that is in store for them to reeky the "Challenge" for next year.

Home again after a week's vacation are the Robert Wasons of Lanegan drive. Their trip took them to Boonton, N. J., where they visited Mrs. Wason's parents, Mr. and Mrs. Arthur Gifford. It was a busy time for the "little Wasons" getting acquainted again with their grandparents and the big attraction the seashore held for them. Another stop was Mountain Lakes, N. J., where grandmother Wason was waiting to greet them.

The Russell Kaufmanns of Charnwood drive, left last Saturday for a week at Fon du Lac on Lake Winnebago in Wisconsin, to visit friends and relatives. A stop over at Mackinac Island for a day was part of their plans.

Earl Badger, nephew of Mr. and Mrs. E. A. Linder of Westchester road, arrived Aug. 18 from Hobbs, N. Mex. He is taking a two weeks tennis course at the international tennis house, Detroit.

Newcomers to the Charnwood subdivision are Mr. and Mrs. Norton Marshall of Charnwood drive, formerly of Pleasant Ridge. Mr. Marshall is retired. Their son, Jack, resides in Grand Rapids with his wife and two children, Lynn and Lee. The Marshalls' daughter, Yvonne is living at about noon and will be opening her own TV advertising company in Birmingham.

Mr. Marshall is a sports and boating enthusiast and belongs to the DAC and Oakland Hills country club. Mrs. Marshall belongs to the Women Writers' club and is treasurer of the American Society of Radio and TV. Every year from November to May the Marshalls enjoy their winter home at Boca Station, Fla.

Newcomers to the Leonard Lane subdivision are Mr. and Mrs. Steve Nagy and their daughter, Sandra, of Bolingbroke, from Cleveland, Ohio.

Mr. Nagy is a professional bowler and is with the Pfeiffer Brewer and Co. He is also affiliated with Brunswick, Balke-Caldwell. Along with bowling, television bowling and appears in films.

Beginning Aug. 22, he will be appearing in exhibition games, in the glass enclosed bowling alley in front of the veterans building, Detroit, during Riverama. Mr. Nagy enjoys golf and belongs to the Elks.

Mr. Nagy bowled with the all stars in Cleveland last year, and he is bowling in Detroit this fall. She has 180 average.

Down the road at Bolingbroke, the Charles Morse family, formerly

Three New Arrivals Come To Troyton Manor Families

Troyton Manor was all agog last week with the arrival of three little newcomers, all girls, who arrived on three successive days.

The first to present herself was Nancy Jo Schulte, weighing 11 lbs. 1 oz. and born at Florence Crittenton hospital to Mr. and Mrs. Thomas Schulte, 1574 Whitehouse road. She joins brother Tommy, 3 years old. Her birthdate was Aug. 12.

The next little miss to appear was Mary Kay Kaufman, whose parents are Mr. and Mrs. Robert Kaufman, 1604 Witherbee road, born on August 14, at Mt. Carmel Mercy hospital, Detroit, weighing 8 lbs. 5 oz. She has two sisters, Patti, 3, and Ann, 1 1/2 years old.

The third young lady joining the trio was born to Mr. and Mrs. Charles Wilson, 942 Brooklawn. She arrived on Aug. 15 at William Beaumont hospital, and weighed 5 lbs., 11 oz. The baby's name is Kimberly. She has a brother, Kevin, 6 years old.

Welcome to Mr. and Mrs. R. J. Nuffer, who moved into their new home on Nampa court recently. They are from Toledo, Ohio, and have three sons, Richard, 9, Rusty, 7, and Jimmy, 2. Mr. Nuffer is sales engineer with UCLA until she transferred to Northwestern University, from which both she and Mr. Nuffer graduated.

Her sorority is Gamma Phi Beta, and Mr. Nuffer is a member of Phi Kappa Psi.

He enjoys playing golf, and both Mr. and Mrs. Nuffer spend a great deal of time at their hobby of woodworking and refinishing furniture.

Mr. and Mrs. George Gellatly, of 171 Derby road, returned recently from a week's vacation of Birmingham, are moving into their new home on two sons, Charles, Jr., 12, and Larry, 9. Mr. Morse is affiliated with General Motors Truck Center. They are members of the First Baptist church, Birmingham. Among their sports interests are swimming and golf.

Mr. and Mrs. Edmund Land moved into their new home on Newland recently. They are formerly of Detroit, and they spent a few days in Newark, Ohio, visiting Mrs. Barker's parents, with whom their young son had been staying while they vacationed.

Mr. and Mrs. Harvey H. Shorter and children, Michael, 6, and Linda, 17 months, returned to their home on Derby road this week. After a stay of a few days in Cadillac where they visited relatives of Mrs. Shorter.

Mr. and Mrs. G. P. Barker, of 1637 Graceland road returned to their home recently from a two weeks' vacation on a trip to Massachusetts and New Hampshire. During their stopover in Niagara Falls for a day, then on to visit friends in Topsfield, Mass.

After a stay of a few days, which included a sight-seeing trip through nearby Sandwich, the Barkers left for more sight-seeing in New Hampshire, with stops at Holderness, and North Conway.

On the return trip, they spent a few days in Newark, Ohio, visiting Mrs. Barker's parents, with whom their young son had been staying while they vacationed.

DETAILS & SUCH

We must confess we have no idea how to tie this ad in to the "Back to School" theme. But—it is possible that as soon as Junior is back in the traces he can be prevailed upon to help you with some of the following details.

- ### NEW LAWS:
1. Have your soil analyzed by the county Agricultural Agent. Take several samples from different areas and mix them together. Take the sample from a depth of 2"—not from the surface.
 2. Add PEATMOSS or sharp sand or clay (whatever is needed) to develop a good soil texture. Spread the necessary fertilizer (AGRIC or XXX or GRO-SOD 10-6-4) on the ground with the improvement materials.
 3. Roto-Till to a depth of 8 inches.
 4. Rake smooth.
 5. Spread lawn seed at a rate of 1 lb. to 200 sq. ft.
 - a) The best lawn seed will contain a high percentage of Kentucky Blue Grass. A mixture of Ky. Blue Grass and Red Fescue also produces an excellent lawn and is a little easier to establish.
 - b) Distribute the seed by one of the following methods:—
 1. With a CYCLONE SEEDER (\$4.40)
 2. By hand (\$8.00)
 3. By fertilizer spreader (Not recommended)

It is best to put on one-half the seed while walking north & south and then apply the other half in an east & west direction to assure more even distribution.

6. Rake in seed with a garden rake or broom rake allowing the tines to penetrate to a depth of 1/2 inch.
7. Roll the lawn with a garden roller or light roller. A heavy roller should have little or no water in it. A light roller should not be filled more than 1/4 full.
8. Jump aside so the grass won't poke you in the eye.

Before we try to write on the improvement of established lawn—a word about TURNIPS.

Never, never overcook turnips or they will turn grey. Then if you eat them your hair will turn grey. We found that a good weed killer will get rid of turnips so you won't have to eat them.

ESTABLISHED LAWS

Getting the most out of reseeding a lawn is a little tricky. Not too much preparation of the seed bed can be done without injuring a lot of grass plants. If the debris from the summer seems unusually thick and matted causing thin areas of grass the raking should be fairly vigorous. In thick lawn areas forego the raking. We suggest the following general procedures:

1. Fertilize the entire lawn with a 10-4 material at the rate of 2 lbs. to 100 sq. ft. BE SURE TO WASH THE FERTILIZER OFF THE GRASS BLADES with a full hose stream after EACH SPREADERFUL of material is applied.
 2. Do whatever raking is necessary.
 3. Spread the lawn seed at the following rates:
 - a) Bare ground—1 lb. to 200 sq. ft.
 - b) Thin lawn—1 lb. to 300 sq. ft.
 - c) Fairly good lawn—1 lb. to 400 sq. ft.
 - d) Thick, heavy turf—1 lb. to 5 to 700 sq. ft.

Be sure the grass is DRY.
 4. Kick all the seed off the grassblades by dragging a broom rake or the back of a garden rake over the whole area.
 5. Water regularly—once a week for Kentucky Blue Grass and Fescue—more frequently for bent grass.
- The foregoing is the last word—our last word—on lawn techniques until we have to change them. Actually these procedures have a large weight of experience behind them as they are largely derived from your own experiences which you have been gracious enough to share with us.

ADVANCE NOTICE—Although we are not quite geared to displaying them some of the

FALL PLANTING BULBS

have arrived. Among them, for immediate planting are

MADONNA LILIES—\$6.00 doz.—60 each

Also on hand are the most beautiful and large (20 cm.)

COLCHICUM

bulbs we have ever seen. These are the bulbs that produce multitudes of pinkish lavender blooms without SOIL, WATER OR CARE.

\$5.75 doz.—60c each
