Cadillac

His Last Switch in Motor Cars !

We have no way of knowing, of course, how many different makes of motor cars this gentleman has owned through the years. But we'd wager that he has changed his preference a great many times in his years on the highway.

And we're also willing to bet that he has now made his last switch in motor cars!

For this time it's a Cadillac! And it is historically true that once a motorist makes the move to the "car of cars", he is usually a Cadillac owner for life.

What are the reasons for this great loyalty? Well, let us count them off.

First of all, there are the things which everyone recognizes in Cadillac. There is its

great beauty . . . its matchless luxury . . . and the unquestioned respect which the car commands the world over.

Then there are those qualities with which anyone who has ever driven a Cadillac is familiar. There is its marvelous comfort and ease of handling . . . its magnificent power and performance . . . its wonderful balance and agility . . . and its extraordinary quietness of operation.

And, finally, there are those things which only Cadillac owners themselves can fully appreciate. There is the car's remarkable economy of operation and upkeep—its incredible longevity—its marvelous resale value—and the great pride and happiness

that it bestows upon the man at the wheel.

If this little check list of Cadillac virtues coincides with what you've been looking for in a motor car, you ought to come in and see us very soon.

You'll find, by the way, that we have recently made two additions to this list of things you get when you make your decision for Cadillac.

We're talking about prompt delivery and a generous trade-in allowance!

Better come in while the circumstances are so favorable—and make your last switch in motor cars!
