**"Keep The Change"**

If you've seen "Mac" Johnson this week, chances are he's told you his waitress story. For those who haven't heard:

"Mac" recently stopped at an out-of-town diner. He ordered the chef's special — and his waitress (brand new on the job) made every possible mistake. She confused the order, spilled the soup, dropped the rolls, brought him a wrong dessert.

Despite it all, "Mac" left a substantial tip. But she immediately handed the money back. "Keep it, Mister — you've sure earned it more than I have," she said.

From where I sit, that girl deserves credit for admitting her shortcomings — something not everyone is big enough to do. For instance, I'm convinced lots of folks know they're wrong when they deny me the right to a glass of beer with my supper... just because they happen to prefer some other beverage. They wouldn't like me ordering them to accept my choice.
