**WANT TO BE KIDDED?**

Irresponsible brokers are quick to over-price a house just to get an exclusive listing. If you want to be deluded and disappointed—that's fine. But, we do not use that method.

We prefer frank, confidential discussions about the current market when listing properties. We will not hypochondric prices, beyond what we honestly believe the property will sell for. Some owners resent the truth, but our records are long and certain that seriously over-pricing homes costs the owner far more money than necessary had he taken our counsel in the first place. You can rely on our valuations.
