

Vacations are a desirable and really a necessary part of each year's experience. Most of us require a change of scenery, a change of activity for a vacation is something more than merely lying on a beach, reclining with a book. The best vacations are those filled with vigorous activity.

Roller Skate Dance 'Champs' To Compete in Regionals

By FRAN MAIER

Roller skating is one of the greatest sports in the world and yet, unfortunately, it is the most misunderstood sport by people both within and without it. The average person outside roller skating thinks of it as that which children do on the sidewalk with the devilish clamp-on skates.

Skating in an integrated manner, figure skating, free skating, speed skating and roller skating interest to people of all ages and temperament.

It can be enjoyed by young and old alike, by "mom, dad and the kiddies, too." Skating has been called by someone as "just off itself minus the friction and jerkiness of walking." It is the freedom of movement which characterizes skating.

TWO YOUNG high school students active in the sport and winners of the Michigan State Intermediate Dance Championship this year are Mary Alice Clouse and Louis Parker. The trophy entitles them to compete in the Regional Meet to be held in Milwaukee June 29 through July 3.

Mary Alice, a student at Bloomfield Hills high school, is the daughter of Mr. and Mrs. John Clouse. Her mother is a fourth grade teacher at Vaughn school.

Mary Alice has been skating for the past three years, however, this is her first year as Louis as her partner.

In 1954, Louis was junior dance championship winner and this year also took first place in the State Intermediate Finals.

Last year Mary Alice took first place in the regionals and second place in the state junior dance.

What's Right for You Is 'Fashion Right'

Individuality is the key to beauty... and appropriately so, in a season when fashion is more than ever dedicated to the concept that "what's right for you is fashion-right."

Beautiful "frocks" vary from the sophisticated to the sweetly feminine. When Emilie and Harry of the Emile Salon did the hairdos for Birmingham country club members and guests the results—beautiful. The most fascinating of his Paris creations was the "frosting," which gives the illusion of sun-kissed hair.

EMILIE, who just returned from Europe with machines and equipment, remarked "frosting is the most wonderful way to change a woman's look without the average upkeep. It is one change that will not lose its original character."

"Amateur Katz," playing through Sunday. Frosting has been popular in the past year, but new here in the past few months. The glory of the whole thing is that it never needs a touch up and applied about once every six months, will keep the hair glamorous.

Mrs. Eleanor Boninat of Southfield road was the model for that creation. Others followed the tailored or strictly feminine "look," styled for facial features.

A complete change was given Mrs. Charles J. Casey, once a brunette, now a blond. Those having less severe changes were Mrs. Robert E. Hovator, Mrs. Charles Gramer, Mrs. William Evans and Mrs. E. J. Grabowski.
