BUSINESS BRIEFS

Resume Wider Eton Discussions July 2

July 2 is the date when Birmingham city commissioners will resume deliberations on the special assessment roll for widening of Eton, from Lincoln north to Yosemite.

In previous hearings which have been spread over months, there has been considerable disagreement over the exact width. Most business property owners object to any widening, nearby residents have compromised on a 33-foot street, but several city commissioners believe it should be made 44 feet wide.

Park St. Paving

Special assessment roll for paving of Park street, from Oakland to Euclid, has been set for July 2 hearing before Birmingham city commissioners.

Insurance Agency Takes New Offices

Moving into the colonial style office building at 180 E. Brown recently, was the Kinsel-Wiggins Agency, insurance representatives.

The single story building contains approximately 4900 sq. ft. of office space with the agency occupying the main part of the building and two adjoining offices to be leased in the near future.

These offices are 20 ft. by 50 ft. and 30 ft. by 50 ft.

The facilities include oil heating and air conditioning. Off street parking is available for approximately ten automobiles.

THE PRESENT agency deals in all types of insurance—fire, casualty and life. They also hold a Michigan non-admitted carrier's license which permits them to service policies through Lloyd's of London.

Present owners are successors of an old insurance agency which dates back to 1890, where they were in business in Birmingham under the name of E. W. Pile and Pile.

In 1903 there were 466 firework deaths in the United States. In 1955 there was only one.
