- 16 ft. Tangier White Viscose-Nylon. Yesterday we had to quote \$212, and now we unquote: \$160.
- 21 ft. Rose-Brige Viscose-Nylon. On the other end of the roll, it would have cost \$278.25. Your yardstick will tell you whether to invest \$195 in gracious living.

This Is WHY—

Twice a year, and only twice, MOLLS conduct a selling event of this unusual character. At this time of year, we take a careful, close look at all our carpeting and fabrics. We confess we do not know why certain colors, patterns or quantities remain unsold. We do know that prolonged wet weather in Oakland County has delayed the normal pace of new home building, decorating and furnishing. MOLLS were prepared for this market a month ago, but we're still waiting for many of you to come in.

Also, this month we have a special problem. Several large carpeting orders, placed with factories for early-spring delivery, are only now arriving. These carpetings are new, fresh weaves of top quality and style, and it is time they were on display. We have already sold 30 to 60 selling days for these new materials. Our decision therefore has been to offer BOTH our new and our slow-moving stock at price levels that are certain to interest every home-maker in range of our advertising. This means you can purchase the slow stock at a discount, and the fresh patterns at a first-time pricing that will return to regular list after this 5-day event.
