Brings Bouquet of Spring Flowers from Carolina Visit

Mrs. Edward Conover, 18836 Bedford road, has returned from Greenville, N. C. where she visited her sister, Mrs. Wendell Smiley having motored down with friends but returning home by plane.

Enroute the plane was grounded in Washington, D.C. where Mrs. Conover had to spend the night, returning to Detroit the following day.

She brought back a bit of the Carolinas with her in the form of a box filled with narcissus, daffodils, camellias and flowering quince which neighbors had picked from their gardens and presented to her upon her departure.

Mr. and Mrs. Herbert Wyatt have returned to their home on Devonshire road after two weeks in Florida, having spent their first week at Hallendale with friends and then motoring from there throughout Florida back to Tampa where they planned for their return trip.

Ask Clarification Of Plat's Status

SOUTHFIELD—Township planning commissioners have been asked by township trustees to provide them with the present status of Northland Estates in Section 26. Trustees want to know if planning board has approved the plat as representatives of the development.

According to Eugene Swem, township supervisor, a lot of confusion has developed over the subdivision of the plat.

Street layout, approved by the county, was presented by builders' approval of the plat, and that the owners said the county approved a sewage disposal plant while State department of health under any conditions there, but Swem said.

Practical Builders also want the plat approved before they install sewers, said Swem.

Three Hostess Club members cut out shamrocks for the club's luncheon and fashion show. Picture on page 2, section 3.

Might Take Action To Enforce Zoning

SOUTHFIELD—Suit will probably be started against Wettlaufer Engineering Co. of 19000 W. Eight Mile, in the near future, if the company stop using property zoned residential on Stahlheim, for a parking lot, according to Eugene Swem, supervisor.

Swem said Baseline Men's club, headed by Dale M. Hadall, 20776 Avon lane, might start suit because deed restrictions would give the homeowners a stronger case than that of the township which will fight the parking because it violates zoning law.

Lots being used by Wettlaufer is just east of the quarter-section line in Section 35 which divides land zoned industrial from that zoned residential.

Hadall said his association had no immediate intention of taking legal action against the company.

With all the "pros" who will exhibit flower arrangements at the coming show in March at the State Fair Grounds, it is quite an honor for Browlie Troop 46 and the now disbanded Girl Scout Troop 307 to exhibit their arrangements. Troop leaders, Mrs. Dittich and Mrs. Whittlesey, are in hopes that those attending the show will look for the Scout and Browlie arrangements.

While many of our area residents seek to escape the wintry blasts by going south with the sun, Mr. and Mrs. Peter Cummins of Kirkshire reversed the procedure by going north to East Tawas to attend to the construction of their summer cottage at Au Sable Point Beach.

EXISTING + LIVING = HAPPINESS

Any of us can "exist" in the ordinary new home of today, but it takes the extras this exceptional ranch offers to give the modern family the kind of living they really want.

Plenty of room is provided here with four bedrooms and three full baths. You'll wake up singing in tune to the Hi-Fi wired into every room. The open feeling of the living kitchen will impress the whole family. Mom will love the Thermador equipment—the over-supply of cupboards and actually an old fashioned pantry, plus an inviting barbecue for steaks and hamburgers. The children will claim the built-in bar for cokes and sodas, and dad's easy chair has a special spot for TV viewing.

The living room has interesting sliding glass walls, that should issue out to a patio, that dad and the kids will build this summer.

The lot will take a good sized garden, badminton court or just freedom of breathing to city cramped souls. You owe it to your loved ones to see this beauty at \$37,500.
