**Natural GAS YOUR SILENT SERVANT**

**We Add The Odor To Protect Gas Customers**

Before natural gas enters the city mains it has no odor. As a safety measure we add a harmless chemical to provide an aid to leakage detection. This is only one of many steps taken by the gas industry to assure safety.

Every piece of pipe, every joint, is inspected and tested before and after it goes into the ground.

The American Gas Association operates extensive testing laboratories to make sure the gas appliances you use conform to rigid safety requirements.

Constant vigilance by all branches of the natural gas industry keep it one of the safest fuels in home or industry.

Only GAS does so much, so well . . . the modern fuel for automatic cooking . . . refrigeration . . . water-heating . . . house-heating . . . air conditioning . . . clothes-drying . . . incineration.
