85% of the Dirt In Your Home Is Buried In Your Rugs!

Yes, that's what a leading vacuum manufacturer recently stated. You wouldn't think of letting your carpets get just as dirty and they hold the dirt more so because of the depth of the pile, than a smooth surface would.

All authorities agree that rugs should be swept and vacuumed regularly and thoroughly cleaned professionally at least once a year.

Why not send them to Crescent? Present has all the latest methods and equipment. We recently added the miracle of Electronics to our drying facilities to give you fast service and softer, lovelier rugs.

All you have to do is call LI 3-5552 to find out how inexpensive it is to have beautiful carpets.
