**BIG-CAR RIDE?** Don't think you have to pay a big-car price to get it. Come in and . . .

**DISCOVER THE DIFFERENCE IN DODGE!**

A smoother ride with Oriflex! Dodge fluid-activated shock absorbers give more precise control than spring-loaded valves in other cars.

It took "big-car" ride to go 31,000 miles in 14 days! No car that just talked "big" could have withstood the tremendous punishment Dodge did at Bonneville. Dodge went 14 days and nights (31,000 miles) at an average speed of 92.56 mph without a single breakdown!

Only a big car can give you big-car ride! And Dodge is bigger all around—inside and out. More legroom front and rear. More hiproom front and rear. More steering wheel clearance.
