For the Most Beautiful Lawn in Your Neighborhood, Use Standard Liquid Lawn Fertilizer

A PERFECT FOOD FOR YOUR LAWN

A COMPLETE FERTILIZER — NO OTHER FERTILIZER NEEDED

When Standard Liquid Lawn Fertilizer is used according to recommendations, no other fertilizer is required. Standard Liquid Lawn Fertilizer is excellent to use on newly sodded lawns, where proper capillary action does not bring plant foods up to the roots of plants. The application of this liquid fertilizer may well mean the difference between getting newly sodded areas started and having to re-sod. An application may be made prior to, or immediately seeding new lawns.
