Newest Buick Yet

WE'VE introduced a lot of new Buicks to the local scene—but never before one as new as this.
Inside and outside, top to toe, end to end—this is the newest Buick yet.
And it's not just new for newness itself—but new in ways that make driving more comfortable, safer and more fun.
You'll see what we mean when you study these gorgeous new Buicks close up.
They're inches lower and stunningly styled from stem to stern—yet each is wondrously roomy inside.
They bring a wide-eyed new visibility of the road ahead with a rakish windshield that adds hundreds more square inches of glass area.
They're new in ride, with a new contour

frame chassis that "nests" your going—giving new roadability with a lower center of gravity—yet road clearance is unchanged.
They're new in handling with a new Buick-developed ball-joint suspension that makes steering and cornering easier while it levelizes braking.
But above and beyond all else—these 1957 Buicks are brand new in performance:
—with a V8 engine that's completely new from the crankshaft up, to give you the highest horsepower and compression ratios in all Buick annals.
—with an advanced new Variable Pitch Dynaflo* that brings you such instant response, such smoothness, such a full

range of fluid motion in "Drive" that the range of "Low" is all but eliminated.
All this covers only the big advances in the 1957 Buick.
There are other wonderful new things to see—the new safety instrument panel—the new dip-center steering wheel—the lavish new color-mate interiors—the new counterbalanced brake pedals—well over a hundred and fifty new features in all.
As your Buick dealer, we're ready and eager to tell you the full story of these newest Buicks yet—and how easy you'll find it to call one your own. Stop in and see us this week.
*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
