

Special Hub Caps Lead to Arrest Of Three Juveniles

The sharp eyes of Birmingham Police Patrolmen Donald Moonen and LaMar Gilchrist last Saturday spotted a pair of stolen experimental-type splinter hub caps on a Troy youth's car.

Arrest of the youth, who gave Birmingham police the name of a

Royal Oak youth who sold the hub caps to him led to the arrest of three Royal Oak juveniles and the clearing up of several local hub cap laundries.

The experimental stainless steel hub caps of which only eight have been manufactured, had been reported stolen by George A. Lyon, Jr., of 290 Lake Park, Birmingham, on Nov. 3. The same hub caps were stolen several months ago and recovered by Birmingham police from another youth's car.

Found Guilty Of Drunk Driving

After an Oakland county circuit court jury found him guilty of driving under the influence of liquor, Burton Van Maanen, 49, of 4960 Birchway drive, Orchard Lake, was fined \$100 last week and ordered to turn over his driver's license to the court.

Charges against Van Maanen were brought by Birmingham police after his arrest May 5, 1955.

Annexed Property Zoning Decision Is Due Jan. 7

There still exists a three-way disagreement over how to zone a small parcel of 14 Mile property recently annexed to Birmingham from Troy.

A final decision is expected at a Jan. 7 public hearing.

Situated just east of Woodward, the large lot should be kept residential if possible, but nothing less than business C, the neighborhood residents insist.

The property owner wants business A for the entire piece. The city plan board has recommended business C for the 14 Mile frontage, parking district for the rear. Planners would agree to a Business A zoning, with parking at the rear if the owner will dedicate 27 feet of frontage for a wider right-of-way and thus provide what amounts to a business C setback from the street.

THREE MEMBERS of the steering committee—Clyde L. Reed, 1281 Cedar; Dr. Paul J. Mentag, 16945 Lauderdale, Southfield, and Joseph A. Cipolla, 1495 Washington—were commissioned to review proposals for a curriculum study and report to the committee of the whole in January so that subcommittees can be set up to report.

Because the original planning facilities committee recommendations encompassed only the two school years ending in 1957, it also has been necessary to reactivate that study in order to have ample time to review the previous recommendations and to present projected needs for the next two to three years.

Members of the original planning committee were invited to reopen their studies. Because of the extensive work done last year, study groups on present building needs and future facilities were combined. Their major function is to determine needs for the next two to three years.

THEIR CHAIRMAN is Jennings Hammer, 1259 Yorkshire. Other members are Richard Morrison,

Parker 61

The only fountain pen that fills itself by itself—it has no moving parts

In its first Christmas Season, the Parker 61 is the distinguished gift for those friends who appreciate the new, the unusual—quite flattering to them and to you.

The Parker 61, with its frankly revolutionary capillary ink system, fills itself, writes effortlessly, dependably—even on a high-flying plane.

You have a choice of rich colors and gleaming caps—all strikingly beautiful. The Parker 61 is \$20 or more.

The Parker 61, alone among fountain pens, fills itself by itself. It fills itself clearly—through the end opposite the point. It's done by capillary action in just 10 seconds—the shining point need never be dipped in ink.

Other wonderful Parker gifts from \$2.95
