

If, when two people unwillingly get into heated argument, each would be able to hear the voice of Conscience say: "Now, hold on there for a minute! Don't you realize that you may be wrong, even if you are right and the other is wrong, will flying words settle the problem?"

Varied Activities Scheduled By Local PTA and PTO Groups

PTAs and PTOs are in full swing with parents planning social events, meeting teachers and board members and, in general, striving to learn more about what goes on in their children's classrooms and getting acquainted with one another.

Bloomfield Hills

At Bloomfield Hills high school, the PTO has scheduled a "miniature school" Monday night. Parents will have an opportunity to go through their children's classrooms, attending each class for 10 minutes instead of the usual length.

Schedules will be handed out at 7:30 p.m. and classes are to begin at 8 p.m. Former officers of the PTO and school board members and their wives will serve as hosts.

Bham High School

The driver training law will be described for parents of juniors at Birmingham high school Tuesday, 8 p.m. at a special grade PTA meeting in the little theater. Many members of this year's class will be directly affected by the recently passed law which becomes effective Feb. 2, 1957.

Faculty members of the high school will also inform parents about the necessary college and business or industrial planning their sons and daughters should be considering, stressing the importance of scholastic grades.

Also of interest will be a presentation of the general school activities parents can expect during the school year. "High school parents have shown rewarding interest in the special grade PTA meetings," explains Herbert Hunter, president of the PTA, in announcing this meeting. "Each year seems to bring its own individual problems and questions for parents as well as for students."

Pierce

Included in the room mothers' get-togethers last week at Pierce school were two events in which fathers were also invited.

On the evening of October 2, Mrs. Keith Pfundstein and Mrs. Thad Hadden entertained mothers and fathers of the children in Mrs. Hart's third grade room. About forty parents attended. About 140 children had different problems, discussed their present class as a whole.

Mrs. John F. Stiff and Mrs. Robert Montgomery were hostesses on the evening of October 3 in Mrs. Sumner's sixth grade room to 35 mothers and fathers. Mr. Sumner outlined the pupils' study program. Ancient Egypt is being studied at present, and the parents are to go to the Detroit Museum of Art to study hieroglyphics and mummy cases first hand. Sept. 20, after school, Mrs. David Falvey and Mrs. Martin Samson entertained 23 mothers in Miss Purchase's fourth grade room.

Baldwin school PTA has asked Jack Wilson of Michigan Bell Telephone Co. to demonstrate Bell's solar battery at a meeting Monday at 8 p.m. in the school gymnasium.

He will tell about the company's research on the battery which converts sunlight into electricity, and show how it can produce power enough to run a phone. Future scientists at Baldwin are invited to attend with their parents.

"Changing Partners" Is Party Theme

Husbands and wives invited to the Damon S. Galls' 12th annual football party will arrive together at Oakland Hills country club Saturday morning, but from that moment on, they'll have a succession of partners for breakfast, bus ride to Ann Arbor, the football game, return trip and cocktails, ending up with their respective spouses for dinner and dancing.

Impetus for this day-long party is the Michigan-Army football game, and Ivy and Damon Galls took the ball from there, planning this certain-to-be-fun event, to which they have invited over a hundred guests. The extra-large size bids to the party featured a blue and gold-clad Wolverine, bid in hand, leaving the rest of the field far behind.

Each girl guest will draw a number tag to be attached to her lapel and the men will draw cards like this:

Your Number is
Breakfast with girl number.....Name.....
Ride to game with girl number.....Name.....
See the game with girl number.....Name.....
Ride back to club with girl number.....Name.....
Cocktails with girl number.....Name.....
Dine and dance with the girl you brought.....
Bus number.....Pool combination.....

Looks like the ingenious Galls have come up with a winner, regardless of what the game outcome might be!!

Father and Son Plan World Trip

Off on a round the world flight next week will be Walter P. Hill and his 12-year-old son, William Patrick. They'll wave good-bye Thursday to the rest of the family at their home on Nantucket road, Bloomfield Hills, as they start their exciting journey to far off lands.

The list of countries they'll visit starts with England and continues through France, Spain, Italy, Greece, Turkey, Lebanon, Jordan, Egypt, Pakistan, India, Iran, Malay, the Philippines and China. Next stop will be Japan, where they'll spend about a week as Mr. Hill makes some business contacts. (He's Walter P. Hill, Inc., engineers and designers of special machinery.)

Honolulu, Hawaii, completes the tour and their feet will be set down on U.S. soil at San Francisco. We'll get some details for you late in November when they're settled down to the local routine once more... young William should be bursting with news after such a fabulous trip.

"Oohs" and "ahs" will undoubtedly be emanating from the Community House Wednesday morning when members of the Needlework guild start piling up their contributions of twin garments on tables labeled men, women, boys, girls, infants and household, and can visualize not only the warmth of body but the warmth of spirit and morale these new articles of clothing will bring to carefully selected needy people.

Mrs. William L. Graham and Mrs. Lloyd H. Diehl, Jr., are co-chairmen of the ingathering which is to be followed by a breakfast. Mrs. M. D. Archangeli is taking reservations and Mrs. W. A. P. It's not too late to become a member of this organization... a phone call to the president, Mrs. Robert N. Woodruff of 815 Puritan, will provide those interested with the necessary information.
