

"Please stop Jimmy from crying!"

DON'T WORRY, little lady—that's what the Visiting Nurse is here for.

Thanks to her, Jimmy will rest easy tonight. Those burns on his legs will heal; and he'll be sound as any two-year-old in a month or so.

She only wishes *all* her patients could be so lucky!

In the past year, she and her fellow members of the Visiting Nurse Association have made over a hundred thousand calls like this. Most of them have been to people who could not afford home nursing. But, oh, how

they needed it... oh, how they blessed you for giving it!

Yes, *you* gave it. *Your* contribution to last year's Torch Drive brought comfort, hope, and expert medical care to people of all ages, races, and creeds. And, whether you give through payroll contributions or in cash, your donation this year is needed to continue the work.

The Visiting Nurse Association is one of 150 agencies asking your help through the United Foundation. When the Torch Drive worker calls on you, remember... *she is asking you to dry a child's tears!*

Give your fair share
—Give once for all!
