

Peace and Quiet Descends Upon Some Beverly Homes

By MARY RUTH ROSS

WEST BEVERLY—Does your house seem suddenly and unusually still? Has the "patter of little feet" lately grown into the clump of size 12 brogues or the steady rat-a-tat of high heels?

Among the telephone settled down to only an occasional apologetic tinkle, instead of its usual demanding ringing. Is the radio quiet, the record-player and the television screen dark? If so, then yours is one of the homes where parents just have packed and sent away a collection.

Social Events Keep Colby Lane Couple Busy

ORCHARD HILLS — A whirl of social events has kept Mr. and Mrs. Alfred P. Hopkins, Colby Lane, busy these past few weeks. Sept. 12 marked the birthdays of Mr. Hopkins and they were entertained at dinner at the Dearborn home of Mr. and Mrs. James Carter. Over 50 guests were there to share his special day.

Each guest house door was cleverly identified by the host and hostess.

Upon the observance of the 14th wedding anniversary Aug. 23, the Hopkins were entertained by Mr. and Mrs. Leo LaFleur of Walnut Lake for dinner and a round of golf.

THIS IS exactly what the builders fear—that Southfield WILL be unable to finance bonds for an indefinite period. And they don't want to wait until Southfield can bond. They want action now, as do the communities involved.

Hayes indicated Monday, that, should Lathrup be left out of the interceptor, it would be extremely expensive to build a sewage disposal plant to serve the city.

"It would have to be 95 per cent effective (which would require a tremendous capital outlay) because of the slow-moving water where the plant would be constructed," said Hayes, who appears in court Friday to defend Lathrup's decision to stay with the Evergreen project against charges by WRC officials that Lathrup has not complied with the decree to end pollution.
