Cadillac

Listen to What Its Silence Says!

Ever hear a motor car tell its own story? Well, just get behind the wheel of a new 1957 Cadillac—head for your favorite stretch of highway—and listen!

Of course, the truth of the matter is that you won't actually hear anything. For a 1957 Cadillac in operation is as quiet as human skill and ingenuity can make it.

But imagine, if you will, all the wonderful things the car will be telling you through the voice of its own silence!

First of all, it will speak—and most eloquently so—of the soundness of Cadillac

styling. For even the onrushing wind is held to a gentle whisper.

It will tell you of the genius of Cadillac engineering. For every aspect of the car's brilliant performance goes about its work in soundless harmony.

And it will reveal the care and the skill of Cadillac craftsmanship. For even when it travels the most neglected of byways, the car remains wonderfully silent.

And imagine, too, what this quiet promises by way of driving satisfaction. It promises rest and relaxation . . . with

complete freedom from distraction.

And it promises dependability . . . for a Cadillac's silence is a telling tribute to its quality of materials and to the character of its workmanship.

If you have yet to sit at the wheel of a 1957 Cadillac and hear this wonderful story for yourself, then we urge you to delay no longer in doing so.

We hope you will visit your Cadillac dealer soon—spend an hour on the highway—and listen to the most eloquent message a motor car ever delivered on its own behalf!
