**Trust services are for lots of people**  
 ... for people like this sophomore, for example. He's going to college on the income from the estate his father left in trust for him of National Bank of Detroit. And he'll get his start in business, too.  
 A *testamentary trust* maturing when the boy is 30, was our suggestion to his father. It keeps the bulk of the estate in good hands, growing right along with the young man's ability to eventually take it over. He'll probably continue his trust relationship at that time; but in a different way. For our investment management—the detailed handling of his portfolio—will free his time and energies for the job and family he'll have to think about.  
 We'll be glad to talk to you about the many advantages of a trust relationship with National Bank of Detroit.

Ultra low... loads of go ...stretch-out room to spare!

Here is the "eyebrow-raising-est" car in the world today — De Soto for 1957 — as incredibly low as it looks... a scant 4 feet 7 inches from road to roof. Yet, you'll find plenty of man-sized stretch-out room.  
 And wait! You drive a De Soto. Its dynamic new V-8 engine speaks with authority in any driving range, tamed to your wishes by finger-touch Push-Button TorquePlate™, the most advanced automatic transmission ever built.  
 You're whisked smoothly and softly over the roughest roads, cushioned by the mechanical magic of Torson-Air Ride. You stay level on sharp curves... and there's no nose-dive even during quick stops.  
 Before you buy any new car, do yourself a favor. Stop in to drive—and price—a De Soto before you decide. Once you do, you'll agree it's the most exciting car in the world today!
