BIRMINGHAM ECCENTRIC
SCHOOL SECTION—11

Dictionary Is Now Geared To Student's Study Level

The dictionary, that handy reference book which is invaluable for homework as well as school work, now comes in a new edition which is tailor-made to meet the needs of students in the fourth, fifth, sixth and seventh grades.

This elementary dictionary is based on books read by children from eight to twelve years in age. Those youngsters, it is just beginning to develop a genuine interest in words to be learned in the classroom. They needn't be expensive. Matter of fact, a desk set, bookends, cushions and for that matter, copies are just a few of the many possibilities.

FOR STUDYING, a good lamp should be a primary consideration. Both decorative and useful, too, would be a desk lamp or bulletin board for putting memos or favorite pictures.

THE LINE of more elaborate lamps, both desk and table, will appreciate a portable television set for their entertainment as well as entertainment value. The set might be a "gift away" to children from Mom and Dad.

One of the most popular ideas in school is doubt about whether an extra bedroom set will be needed or not in the dorm room. Shouldn't the college catalog and talk with the school principals of the dorm be attended by the student?

Parents Role

Parents can and should play an in-direct role in the home development of the dictionary habit by letting children know that the word "dictionary" means a book that they will be exposed to in school and in the home.

Parents and children should also keep a copy of the dictionary in the home and have it handy for future reference.

Circular Skirts New Challenge For Teen Ages

From jeans to circular skirts is the role of teen-age fashion under the wide-shouldered, lady-like look now a high school must. Girls are finding that circular skirts have more than one advantage as a replacement for bermuda's and shorts.

There's great wardrobe stretch in the circle skirt, and berets, scarfs, and boots. For instance, circular skirts are both quick and easy to fit, and they can take on a new sewing project; but there are a variety of patterns in the center pattern.

One form of the fall ties is for several paths to get together and make a "lace" circular skirt for high school. For instance, one idea is to design the most interesting, the most fitting skirt. Make one skirt style in several fabrics.

Make one for a dress of printed washable chiffon, another for part of a silk look and another for a third for school basketball games. The pattern can be varied without losing its beauty.

Extra touches to express the teen-age's own taste and personality are easily added. One idea is to have the embroidery embroidery along the skirt's seams and the center pattern. For instance, one idea is to make a "lace" circular skirt.

The felt skirt can be personalized by cutting out of contrasting fabric and adding with zig-zag stitches.
